

The Red Bull Ring Circuit (Austria) hosted the seventh round of the FIM Enel MotoE World Championship

The Red Bull Ring circuit in Austria hosted the seventh round of the 2024 FIM Enel MotoE World Championship season, which will conclude at Misano on the second weekend in September.

The Aruba Cloud MotoE team riders both finished Race 1 in points, while in Race 2, Chaz Davies finished 14th and Armando Pontone 16th.

Race-1

After a good start, Chaz Davies took 13th place, overtaking Kevin Manfredi on the last lap. Armando Pontone crossed the line in fifteenth position, taking 1 point.

Race-2

Chaz Davies finished the race in fourteenth place after gaining one position on Manfredi. Sixteenth place finish for Armando Pontone, who could not replicate the good feeling of Race-1.

Chaz Davies (Aruba Cloud MotoE #7)

"It wasn't easy racing for the first time at a new circuit for me, also because we had a technical issue on Friday that forced me to skip practically an entire session. The feelings during the two races, however, were positive. We did our best, and I can't wait to get back on track at Misano, where we can improve".

Armando Pontone (Aruba Cloud MotoE #80)

"In Race 1, the sensations were positive because we managed to have a good pace. Unfortunately, starting a long way back didn't help us, but the important thing is that the feeling has grown significantly. See you at Misano".
